

# NORDSTROM

Dear Nordstrom Vendors:

Nordstrom will be switching its value-added-network (VAN) traffic from the IBM/Advantis Network to INOVIS, formerly Harbinger on August 8, 2006. The conversion will be executed so there will be minimal impact with transmissions between Nordstrom and our vendors. Transmissions will be monitored closely to ensure no errors occur during the migration process. We also encourage you to monitor your functional acknowledgments (997) closely.

Below are the Nordstrom sender/receiver ID's affected by this conversion:

## Full line Stores/Rack Stores

Qualifier	Sender/Receiver
01	007942915
01	007942915A
01	007942915T
12	2062336664
12	2062336352
ZZ	NORDTIB
ZZ	NORDHRC

## Nordstrom Product Group (NPG)

Qualifier	Sender/Receiver
ZZ	NORDNPG
ZZ	NORNPGA
ZZ	NORDNIL
ZZ	NORDASN

Questions can be directed to the Nordstrom EDI group at [EDI.Group@Nordstrom.com](mailto:EDI.Group@Nordstrom.com).

## Frequently Asked Questions

### **Will Nordstrom notify my VAN of the migration?**

Yes, Nordstrom will notify all VANS 48 hours prior to the migration.

### **Will I still use the same ISA sender/receiver ID/Qualifier to trade with Nordstrom?**

Yes, Nordstrom will continue to trade with the same ID and Qualifier as you currently have.

### **Do I have to make any other changes?**

Only partners using the IBM Global Exchange Server will need to make migration day changes. All other changes will be coordinated at the VAN level.

## Migration Notes

If you are using IBM Global Exchange Server you will need to make the following changes at the date and time specified above.

Acct = VANS  
User ID = HAMAIL

Thank you for your assistance in this matter.

Nordstrom, Inc.
