

NORDSTROM

Dear Nordstrom Supplier,

In partnership with the GS1 Extended Attributes for ecommerce Guidelines, approved on September 9, 2013, we need you to begin populating some additional product attributes in your online catalog. These attributes will support our ongoing efforts to improve our customer experience and our international business.

In preparation for our first Canada store opening in 2014, we need your partnership to ensure all Customs regulations and obligations are met.

Effective immediately we **require** your full 10 digit **US Harmonized Tariff System (HTS) number** and **Canada Harmonized Tariff System (HTS) number** as well as the **Required Attributes** noted below be added to your UPC (EDI832) Catalog for all items. If this information is not currently being maintained please begin adding your US HTS number, CAD HTS number and Attributes prior to 'item set-up'.

Required Attributes:

- Product Classification
- Product Classification Value
- Consumer Description
- Country of Origin
- Features/Benefits
- U.S. Harmonized Tariff Schedule
- Canada Harmonized Tariff Schedule
- Manufacturer of Goods
- Product Description
- Product Extended Description
- Product Type
- Fabric Description
- Item Care Instructions
- Fur - Animal Name
- Fur - Country of Origination
- Fur – Treatment
- Product Image URL
- Hazardous Material Class Code
- Hazardous Material Description

Please contact our Supplier Compliance department at micompliance@nordstrom.com for details on creating a UPC catalog.

Thank you,

Nordstrom Inc.
