Re: New Nordstrom Fulfillment locations – Nordstrom Local Omni Hub (LOH) Store 156/DC 399 and Expanded Store 659

Dear Nordstrom Supplier,

In a continued effort to support our growing online customer, Nordstrom is expanding our supply chain with new fulfillment locations. You will now see even more ship to locations on our Nordstrom.com purchase orders.

The first of several new fulfillment locations will be what we are calling a Local Omni Hub (LOH). This LOH store number is 156 and will be serviced by our Ontario Distribution Center (DC) 399 for the LA region. You will begin seeing POs with 'not before' dates of May of 2019, please ensure the correct Store / DC mapping is in place.

Nordstrom.com is also expanding the scope of the Beauty FC 659 / DC 699 to include a more diversified product mix. This will begin this month, please ensure Store / DC mapping is up to date.

Our Nordstrom.com POs have multiple 'ship-to' locations. **We ask that you do not begin packing orders until either the EDI copy of the PO or the PDF copy of the PO is received. Do not use any excel spreadsheet for packing and/or shipping, as the store allocations will be incorrect.** Shipping against these will incur expense offset fees.

The new stores have been added to the Store / DC list for Nordstrom.com in Section 8 of our Routing Guide, **please map the new stores accordingly**. The store / DC segments should be mapped on the EDI 856 (ASN) as follows:

- **LA LOH store segment: N1*BY 0156 | DC location N1*ST 0399**
- **Maryland FC store segment N1*BY 0659 | DC location N1*ST 0699**

This information has been updated in our [Routing Guide](#) on www.nordstromsupplier.com. Please review it and our Supplier Standards, to ensure you are shipping, packaging and packing your product according to our Nordstrom.com standards when sending to these new locations.

Thank you for your continued support.

Sincerely,
Nordstrom, Inc.
