Dear Nordstrom Supplier,

This is for our Nordstrom full line (FLS), Rack, Nordstrom.com and Canadian divisions for the qualifiers and IDs listed below:

Note: Our drop ship division will **not** be migrating to GXS. All drop ship vendors will continue to use Drop Ship Commerce (DSCO).

If you maintain your own internal routing tables, please be sure you update your system to point to GXS on **Tuesday, October 17, 2017** at **9:30 AM PT**.

As always, please be sure to monitor your 997 (functional acknowledgment) after the migration to ensure Nordstrom is receiving all data you are sending.

If you have any questions, please contact Nordstrom at EDI.Group@Nordstrom.com.

Thank you for your assistance in this matter.
