Re: New Nordstrom Fulfillment location – West Coast Omni Center (WCOC) Store 584/DC 399

Dear Nordstrom Supplier,

Nordstrom is continuing its effort to support our growing online customers. To serve them better, we are again expanding our supply chain with another fulfillment location. As with the addition of the LOH last year, you will now see more ship to locations on our Nordstrom.com purchase orders.

This new location will be the West Coast Omni Center or WCOC (store 584) and will be initially serviced by our Ontario Distribution Center (DC) 399. All orders for store 584 must ship to our DC 399 location. The long-term strategy is to transition routing directly to the WCOC. Further communication will be sent prior to this transition.

This will be for Nordstrom.com POs only and these POs may have multiple 'ship-to' locations. **For all Nordstrom orders, we ask that you do not begin packing orders until either the EDI copy of the PO or the PDF copy of the PO is received. Do not use any excel spreadsheet for packing and/or shipping, as the store allocations will be incorrect.** Shipping against these will incur expense offset fees.

You will begin seeing these POs with 'not before' dates of late July 2020. Please ensure the correct Store / DC mapping is in place. The new store has been added to the Store / DC list for Nordstrom.com in Section 8 of our Routing Guide. **Please map the new stores accordingly.** The store / DC segments should be mapped on the EDI 856 (ASN) as follows:

- **WCOC store segment: N1*BY 0584 | DC location N1*ST 0399**

This information has been updated in our [Routing Guide](#) on www.nordstromsupplier.com. Please review it and our Supplier Standards, to ensure you are shipping, packaging and packing your product according to our Nordstrom.com standards when sending to these new locations.

Thank you for your continued support.

Sincerely,
Nordstrom, Inc.
