

ANNOUNCEMENTS & REVISIONS

ANNOUNCEMENTS

COVID-19 Wellness and Safety 3rd Party Provider Standards

To minimize the potential spread of COVID-19, all third-party service providers who need to be on Nordstrom premises are expected to follow these Wellness & Safety Expectations. Third-party service providers include any non-Nordstrom employee working onsite at any of our Nordstrom locations such as vendors, temporary workers, independent contractors, models and freelancers. Please review the Wellness and Safety Standards on the left sidebar.

DC 799 HAS REOPENED IMMEDIATELY RESUME SHIPPING TO DC 799

Effective immediately DC 799 has reopened and all shipments destined to DC 799 should resume. The Store DC relationship has been updated in the Routing Guide.

Questions can be directed to: traffic@nordstrom.com.

PRODUCT OVERAGES & SHIPPED OUTSIDE AGREED WINDOW WILL BE RTV'd

Beginning on 11/4, Nordstrom will be enforcing the use of RTVs for product that was not ordered, overages or shipped outside of the agreed-to window.

Please be sure to ship per the final details of your purchase order. Any changes made by Nordstrom to the order should be reflected in the shipment. This includes overage units and items that were not on the final order. Any additions to the order will need to be communicated to your buying partners and updated on the purchase order.

Additionally, in order to ensure the maximum product market availability, please commit to the ship window on the purchase order. Orders that arrive outside of the agreed-to window will be subject to an RTV. All extension requests should continue to be communicated to the merchants in order to avoid any unintended returns.
