## SECTION 1

## STORE ORDER HANGER REQUIREMENTS

Nordstrom requires specific product types to be shipped on hangers. Hangers must be inserted into these products and shipped in cartons. Expense Offset Fees will be incurred if product received with hangers has size indicators, supplier logo/stickers, full foam covers, foam mini covers, loose foam, or fabric swatches. Most ecommerce orders should be shipped flat, no hanger, polybagged with a UPC barcode on the outside of the polybag, see Section 2 for more details. Questions regarding hanger requirements can be directed to the Nordstrom Floor Ready Department by emailing [FRM@nordstrom.com](mailto:FRM@nordstrom.com).

### Additional Specifications

- Use a combination of top and bottom hangers for all 2-piece coordinates/sets
- Rubberized grippers required (style PGRAB) on some items to prevent damage or slippage (i.e. scoop neck tops, fine gauge knits, etc.)
- Bottoms must be hung at the waist

### Unacceptable Items

- Size indicators and supplier logos/stickers on hangers
- Full foam covers on top hangers or foam mini covers
- Loose foam or fabric swatches on bottom hangers

**NOTE:** Hangers inserted into product where a hanger is not required, product received without a hanger when a hanger is required, product received under the Unacceptable Items list, or does not meet GS1 US standards (formerly VICS) where specified (see tables below) **will incur an expense offset fee** (Nordstrom does not provide pictures of non-compliance). See Nordstrom [Expense Offset Policies](#) on the left sidebar of [www.nordstromsupplier.com](http://www.nordstromsupplier.com).
